# MEDLAB PROJECT

MedLab's objective is to promote processes of open innovation and territorial cooperation in the Mediterranean Basin, through the construction of a trans-Mediterranean Living Lab articulated as a multi-player, multi-level governance network for territorial innovation. It is building on concrete pilot projects in five key fields: inno-SME networks, rural development, coastal zone management, participatory strategic planning and tourism. The project is co-financed by the European Regional Development Fund (ERDF), and encompasses 6 MED space Member States.
